

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 6,925,202 B2
DATED : August 2, 2005
INVENTOR(S) : Linard Karklin et al.

Page 1 of 2

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 26,

Lines 23 and 34, insert a colon after "includes" and begin a new paragraph.

Line 24, replace "feature." with -- feature;

providing a plurality of theoretical cuts substantially perpendicular to the centerline, wherein each cut creates a rib extending from the centerline to an edge of the feature; and
comparing at least two ribs to determine edge roughness. --.

Line 35, replace "feature." with -- feature;

providing a plurality of theoretical cuts substantially perpendicular to the centerline, wherein each cut creates a rib extending from the centerline to an edge of the feature; and
comparing at least two ribs to determine edge roughness. --.

Column 27,

Line 4, replace "an" with -- any --.

Line 8, insert a colon after "includes" and begin a new paragraph; replace "feature" with -- contact --.

Line 9, replace "feature." with -- contact;

providing a plurality of theoretical cuts substantially perpendicular to the centerline, wherein each cut creates a rib extending from the centerline to an edge of the contact; and
comparing at least two ribs to determine corner rounding. --.

Line 19, replace "feature." with -- feature, the measurement provided by making a plurality of theoretical cuts substantially perpendicular to the centerline, each cut creating a rib extending from the centerline to an edge associated with the repaired feature, and comparing at least two ribs. --.

Line 36, replace "centerline." with -- centerline, wherein the means for measuring includes:

means for providing a plurality of theoretical cuts substantially perpendicular to the centerline, wherein each cut creates a rib extending from the centerline to an edge of the feature; and

means for comparing at least two ribs. --.

Line 61, replace "standard." with -- standard, wherein the means for determining includes:

means for providing a plurality of theoretical cuts substantially perpendicular to the centerline, wherein each cut creates a rib extending from the centerline to an edge of the feature; and

means for comparing at least two ribs. --.

DATED : August 2, 2005
INVENTOR(S) : Linard Karklin et al.

Page 2 of 2

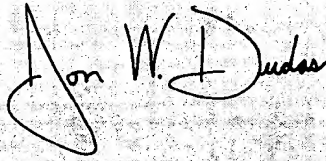

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 28.

Line 35, replace "centerline." with -- centerline,
wherein the analyzing includes making a plurality of
theoretical cuts substantially perpendicular to the centerline,
each cut creating a rib extending from the centerline to an
edge of the feature, and comparing at least two ribs. --.

Signed and Sealed this

Fourteenth Day of March, 2006

A handwritten signature in black ink, reading "Jon W. Dudas". The signature is stylized, with a large, looped initial "J" and a cursive "Dudas".
